# LEGALVISION

LEGALVISION, a knowledge-driven

Fliki.ai

# Problem Statement & Stakeholders

**Context:** Sri Lankan property law, focusing on deeds, leases, and mortgage etc. legal documents that are complex, lengthy, and difficult to interpret.

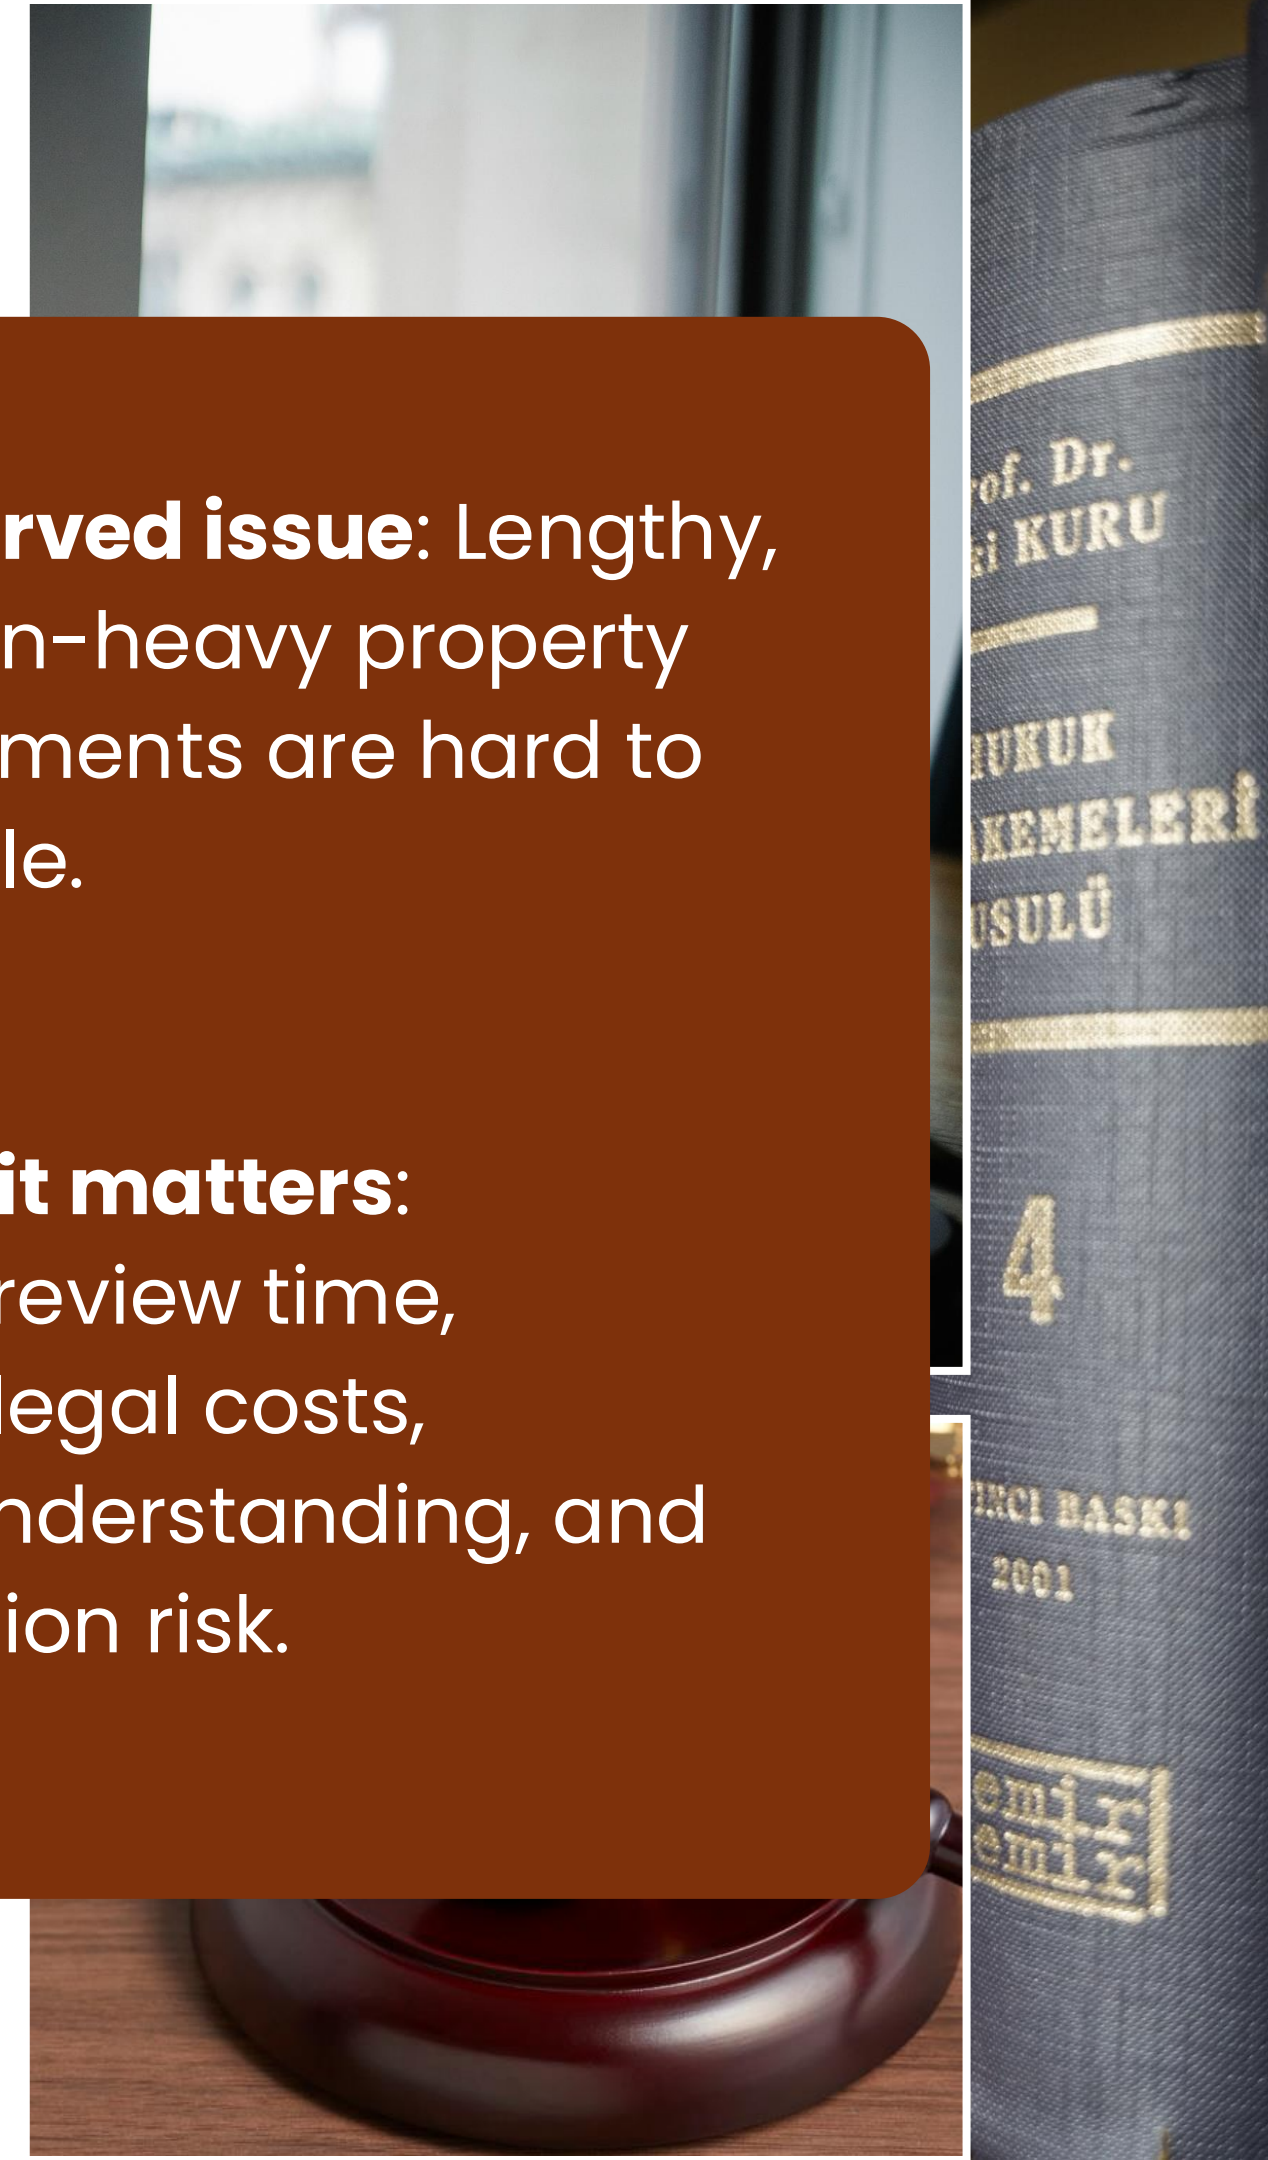

**Stakeholders:**

Primary users – General people

Secondary users – Lawyers, law students

**Observed issue:** Lengthy, jargon-heavy property documents are hard to handle.

**Why it matters:**  
high review time,  
high legal costs,  
misunderstanding, and  
decision risk.

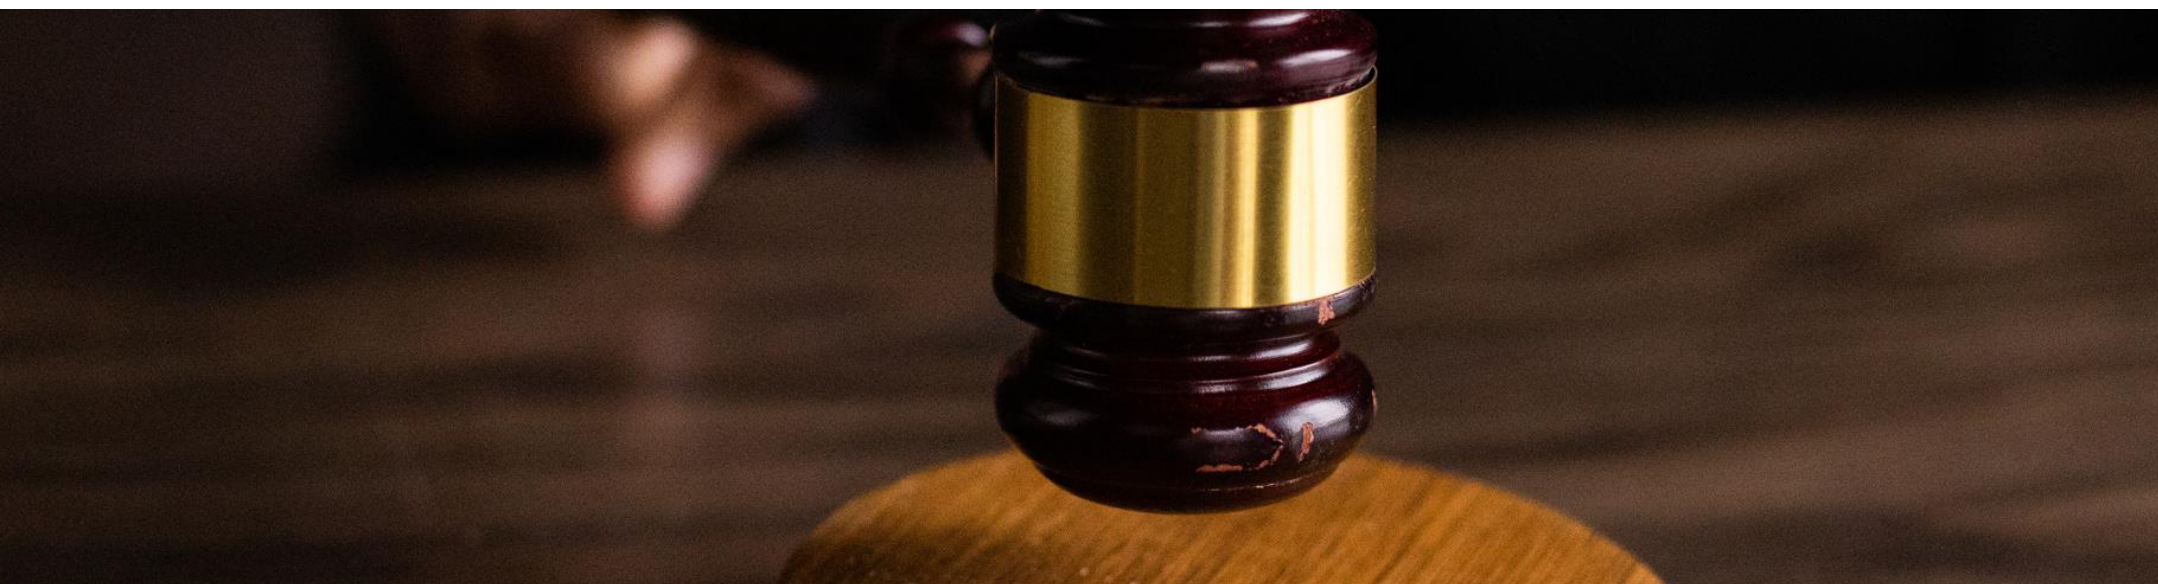

# RESEARCH GAP & OBJECTIVES

**Gap:** Existing solutions do not provide a unified platform for accurate summarization + visualization, explainable insights, risk awareness, and connected knowledge analysis for property law documents.

**Objectives:** To develop an AI powered system that ->

- summarizes + visualize Sri Lankan property law documents
- improves explainability
- identifies risks,
- links legal knowledge for better decision-making

# SOLUTION OVERVIEW

**Solution:** An AI-powered platform for analyzing Sri Lankan property law documents through summarization, explainable reasoning, risk evaluation, and knowledge graph support.

## **Key features :**

- Multi-perspective summarization + Visualization,
- explainable legal reasoning,
- legal knowledge graph,
- bias/risk evaluation.

## **Non-functional focus:**

- Usability,
- reliability,
- transparency,
- scalability.

**Current completion status:** 90%

# SYSTEM ARCHITECTURE & INTEGRATION

## User / Legal User

- Property buyer / owner
- Lawyer / notary
- Researcher / general user

## Document Upload Interface

### Summarization & Visuals

### Bias/Risk & Trust Score Module

### Explainable Reasoning Module

### Knowledge Graph & Integration

**Integrated Results – React Frontend + Flask Backend**  
APIs – Rest / JSON

# COMMERCIALIZATION

**Target users:** Property buyers and owners, lawyers, and land related institutions in Sri Lanka.

**Value proposition:** Faster, clearer, and more trustworthy property law analysis tailored to Sri Lanka.

**Revenue & Investment Recovery**  
**Premium subscriptions** for advanced features (in-depth visualizations, and downloadable reports)

**Free community version** via legal aid centers

# DEMO PLAN

**Demo flow** : upload a property document → generate summaries and visuals → inspect bias/risk + trust score → view reasoning chain and knowledge-graph links.

Wicramasinghe → summarization/visuals;  
Maxwell → bias/risk and trust score;  
Sivanuja → explainable reasoning;  
Sharan → knowledge graph and integration.

**THANK YOU**
